Quand je suis né,
tout le clan a choisi mon prénom.
Ça allait être BouBouh.
Ma maman a bien essayé de protester
mais rien n'y a fait.
Ça serait BouBouh, un point c'est tout.
Et BouBouh, pour un monstre, ça le fait pas trop !

Faut pas croire, ils sont flippants ces enfants !

Ils ont l'air tout mignon comme ça quand ils dorment
mais dès qu'ils se réveillent, ils se métamorphosent en bêtes sauvages !
Ils hurlent, ils s'agitent dans tous les sens,
ils s'accrochent, ils bavent, ils déchirent ! Ils crachent, même !

C'est Glups, un nounours à la retraite qui m'a raconté...

En fait, j'ai des rêves plein la tête.
Quand je serai grand, je me verrais bien explorateur sur Saturne,
rapeur de légumes morts ou encore prof de rigolade.
En tout cas, pas un monstre qui flânque la pétouche aux enfants !
Je n'y peux rien, je suis comme ça, je ne le fais pas exprès !

Mes parents sont trop forts en frousse, eux !
Ils ont même gagné plusieurs fois de suite la coupe du Père Stréumon.
J'ai déjà vu des enfants devenir gris de peur devant eux !
Ils sont vraiment balaises, ils ont ça dans les poils.
Pas moi !

La Tour The Tower

A beautifully illustrated story, a journey through the history of the world. The evolution of humanity, its artistic experiments, its technical discoveries and its eternal unanswered interrogation...

What is above the ceiling ? The sky, okay, but higher, even higher, behind, what is it ? The god of the winds, a lame devil, the queen of the night, the master of the time ? To answer this question a tower is built, a huge tower to climb high, always higher, above the birds, above the clouds, to see, to know...

An Other World

This echo to Plato's allegory of the cave invites us to leave without fear to discover the unknown.

The obscuris are little people living at the bottom of a well. In the dark, they do not know what they look like, think that the walls of the well are the limits of their universe and that its dazzling entrance is a distant moon. One stormy day, a branch inflamed by lightning falls to the bottom of the well, illuminating up one of them...

La Vraie Fausse Histoire du Minotaure True False History of the Minotaur

Taciturn, Theseus was silent. Therefore, he was thought to be mute, stupid, crazy or even worse, foreign ! He was then hunted for fear and precautionary principle. Always forced into exile, he ends one day by landing in Crete. The little people were in full effervescence. It was the day, according to the tradition, every year, a young man was designated to go and deal with the frightful creature half-man half-bull: the Minotaur...

Les Oiseaux blancs de Manhattan The White Birds of Manhattan

A sensitive and graphic approach to the disaster of September 11, 2001.

«On a beautiful fall morning, like every day, she left in a yellow cab...» By taking this taxi in this huge city, she could not suspect what will happen. In a few seconds, on turning a page, they flew away. Time has passed, life went on, hoping to see the day rise again. This album addresses with many delicacy a sensitive topic of our recent history.

Help Knowledge Nature

There are many animals on earth that are unknown to the general public and which nevertheless are fascinating by their beauty, their particularities or their way of life.

Unfortunately, there has been very little documentation about these strange species until now.

With the release of the collection «Unknown Animals in Danger» at Éditions d'Orbestier, readers will be able to discover the life of these very particular wild animals and realize that the degradation of their environment seriously compromises their future : they are likely to disappear even before being known!

Apprendre en jouant

Le lion est un chasseur. Pour qu'il puisse attraper ses proies, il est nécessaire qu'il acquière de l'expérience et une bonne condition physique. C'est au travers des jeux que les lionceaux apprennent à chasser, traquer ou poursuivre une proie. Les jeux collectifs sont également le moyen pour eux de mesurer leur force et de développer la musculature qui sera indispensable à leur survie. En jouant, les jeunes lions développent leur musculature, apprennent à chasser, à se battre et à communiquer entre eux.
